

Arch Canopy

The Arch is a beautiful, inspiring structure which, at its largest, can provide 400m² of covered space. Its square uninterrupted footprint has made it popular as a performance space or for dining and outdoor classroom areas. Several arches can also be linked together if the coverage required is rectangular rather than square.

The table below lists details of the structure and sizes available. Please also refer to our comprehensive canopy buyer's checklist to help you to specify the canopy that best suits your needs and make a fair comparison between different potential suppliers.

Key Features

Sizes: 5mx5m, 8mx8m, 10mx10m, 12mx12m, 16mx16m, 20mx20m (other sizes available on request)

Can they be linked together: Yes
